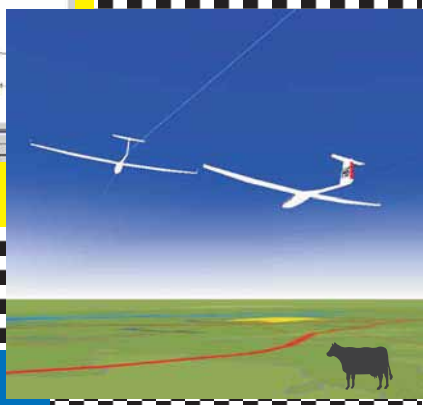
GTA Race Series

Georgia Tennessee Alabama Sports Class Race Series

The GTA Race Series is a semiformal competition; a group of friends that get together 6-8 weekends a year and fly/race cross-country. We crew for one another, fly at several sites, teach racing skills and learn from one another (including several that have flown in Regional, National & International competitions), enjoy great camaraderie, and have a blast together. Newcomers &Visitors are always Welcome.

The letters GTA stand for Georgia Tennessee & Alabama. This is where *most* of our pilots are from as well as where we hold most of our races. Everyone is always welcome to join us regardless where they may be from.



Races begin with a pilot's brief. We explain the contest rules & procedures and emphasize safety. We also discuss race strategies & cross country technique.

We race with 2 Classes: **A** Class for Experienced racers & **B** Class for Novice racers.

The GTA is based on **Sports Class Regional Rules**. This means you can use any type of glider. The handicap system helps equalize the differences in aircraft performance. **You do NOT need the latest machine or avionics to compete.**
